

PANASONIC DZ110XE 10K PROJECTOR

NEW 10K PROJECTOR WHICH PUNCHES WAY ABOVE ITS WEIGHT

The DZ110E projector is the latest in a line of market beating mid/high end projectors from Panasonic, providing exceptional brightness, image quality and operational flexibility, in a revolutionary new ultra compact package.

The new projector is smaller, lighter, quieter and greener than competitive machines with half the output. The WUXGA Chip allows full HD performance whilst the compact package and CT's substantial inventory allows multiple stacking options, which in many situations provide an alternative to conventional High Power Projection options delivering reduced weight and noise combined with 100% redundancy.
